Class Lecture

A seminar style will be used throughout the course. The professor will provide additional information, research findings, and opinions of other specialists via class lecture and discussion. This material will supplement text reading assignments and personal research. Effective note taking is essential and important because lecture material will be incorporated into class discussions, exercises, class projects, and case study analysis.

Class Discussion and Participation

This course is designed to maximize class interaction and utilize the resources and expertise of every participant. Participants are encouraged to ask questions, complete reading and course assignments, generate relevant discussions, and express their opinion on issues. Everyone in class will be asked to participate in class discussions on specific topics, as well as small group exercises. See Appendix A, J.

Reading Assignments/Handouts

Participants are required to read the course texts, journal articles, cases, and course handouts to be completed between class sessions. Each student must thoroughly read the assigned readings and be ready for active and informed discussion in class. Active discussion of readings will require students to have a strong command of issues in readings. Students should critique and appraise the readings so that effective synthesis and evaluation of issues can take place for each reading.

Evening News

You are asked to report in class on a current global healthcare management issue or event and facilitate a discussion focusing on important facts impacting your organization. Refer to Appendix M.

Self Evaluation Assessment

Throughout the course, the professor will be using class exercises to help the student clarify and think about their own values, beliefs, and attitudes regarding global healthcare management issues.

Televideoconferencing TVC /Video Reviews

Students will be asked to participate in one or two TVCs arranged with students and faculty from another country. This exercise will provide an opportunity to discuss health care services and systems with another country and to apply new knowledge to understanding the system of care.

Optional Learning Experience

The professional presentation and professional paper as a class exercise can be modified. This course provides students with an optional international study tour at the end of the semester or during semester break. Students can use this course to develop an international lecture or research paper to be presented at a university in another country. The student can also develop a manuscript for publication in an appropriate international journal. See Appendix I and Appendix K or prepare an abstract to present at a conference.

Study Tour Abroad

The professor will provide all students with an opportunity to participate in an international study tour. This is an optional experience above and beyond the regular course assignments and will be used as a graded class activity. Each student must keep a journal and prepare a 10 page reflection paper. Appendix L provides additional information and assignments related to study abroad experiences as an options to this course. See the explanation under grading criteria. See Addendum Handout.

Video Tapes Slides

The professor will use ppt slides and video tapes in class to augment readings and lectures when appropriate.

Journal

Each student participating in the study abroad course option will maintain a
