Provost/Senior Vice President for Academic Affairs

SUBJECT: Academic Affairs Report for October 2019

1. Rank and Tenure

A public meeting to inform faculty of the rank and tenure policies and procedures was held on September 19th. Twenty faculty have applied for tenure and/or promotion for 2019-2020 reviews. Eleven faculty are applying for promotion to full professor, two for associate professor, six for tenure and promotion to associate, and one for tenure.

2. Strategic Enrollment Planning Update

Dr. Lew Sanborne, from RNL will be on campus November 12th and 13th to meet with the SEP Council, Action Groups, the President and Cabinet, to move toward finalization of the SEP document and facilitate the transition from strategic enrollment planning to strategic enrollment management.

3. Space Utilization Survey

The consultants for this survey have completed the data collection for the classroom and lab aspect of this study, which primarily considers the amount of space in each classroom/lab and the current usage in each classroom/lab. Facilities will share this information with a council of representatives (including two faculty members – Marian Farrell and Bill Miller), the Faculty Senate Academic Support Committee, and department chairs in each school/college. The next step will be to look at the data for office space on campus. We hope to have this data by Spring 2020.

4. Pre-Med report

At the May, 2019 Faculty Senate meeting, a request was made to view the admissions data of our students to medical and other health programs, including their majors. I am attaching a list of students who were accepted into medical or other schools last year. Students all agreed to allow their names to be posted publically to this report.

5. Curriculum

The FSCC has been working hard to clean up some of the backlog from last year. I have approved the following curriculum proposals.

<u>New Courses</u>	<u>Date Posted</u>

Motion 2019-2020 # 4-8-23-19 Neuroscience 5th year option (2016-46)

Both of these programs have been submitted to the Office of the Provost. As suggested in the September 2019 Faculty Senate meeting, an administrative agreement will have to be signed with GCSOM before moving this program forward to the Board of Trustees.

In response to a question at that meeting, we will need to seek a “substantive change” approval from Middle States because half of the credits will be delivered at GCSOM.
